# *With the wind on our side* **Wind potential in Mexico**

Regarding wind potential, Mexico is the 16<sup>th</sup> position in the world (according to Ramón Fiestas, President of GWEC) and 2<sup>nd</sup> place in Latin America; therefore, the 9<sup>th</sup> edition of Mexico WindPower® 2020 is the most important event of the wind energy industry in the country, where the details of this important growing sector are announced.

In the next six years, we have the opportunity to triple the installed capacity of electricity generation through wind technology (4,935 MW in 2018) to reach almost 15,000 MW in 18 states in Mexico, with investments over 14 billion dollars in projects that are already underway and with potential for at least 100% more. Likewise, in the same period, the wind sector could create more than 35,000 permanent jobs through the promotion of new electricity generation projects and local manufacturing, strengthening local supply and the manufacture of national inputs.

On environmental issues, wind projects already in operation avoid the emission of 10.3 million tons of CO<sub>2</sub> into the atmosphere each year and contribute to complying with international agreements against climate change and achieving the Sustainable Development Objectives of the United Nations.

Mexico WindPower®  
is the forum in  
Mexico and Latin  
America that will  
boost the business  
of your company.

**\* Event organized by the Global Wind Energy Council (GWEC), the Mexican Wind Energy Association (AMDEE), in conjunction with Tarsus Mexico.**

Mexico WindPower® has grown steadily and has proven to be the ideal showcase for conducting business and exchanging knowledge within its Exhibition and Congress.

### **Why participate in such an event?**

- You will meet face-to-face with real potential buyers
- If these buyers don't see your brand, they won't know it exists.
- You will be part of the companies that will be aware of the potential of the Mexican wind energy market
- You will network with key industry personalities
- You will be able to present your products before your competitors
- You will be able to exchange your success stories within the Congress.
- You will be able to do business and form alliances with government representatives

### **If your company is a supplier related to the wind industry and represents any of the following options:**

- Wind farm developers
- Manufacturers and/or distributors of industrial components and equipment
- Technical Service Providers
- Investment companies
- Distribution and transmission companies
- Measurement and automation companies
- Research and development institutions
- Consultants
- Integrators
- Entities training human resources for the sector
- Specialized legal and accounting firms
- Insurance companies
- Telecommunications companies

...among many others.

**You should be part of Mexico WindPower® 2020**

### **Mexico WindPower® 2020 is inviting decision makers from different sectors, such as:**

- Associations and NGOs
- Energy Sector Authorities and Government Officials
- Law firms specializing in environmental projects
- Research centers
- Consultants
- Wind energy equipment and component developers and manufacturers
- Project developers
- Distributors and Agents
- Wind potential and technical and economic feasibility study evaluators
- Machinery manufacturers
- Financier/ Investor / Banker
- Generators and self-suppliers
- Higher education institutions
- Insurance, bonding and risk management companies
- Operators / equipment maintenance
- National and international trade press
- Environmental and energy professionals
- Equipment and installation service suppliers
- Equipment Transportation / Carrier
- ...among others.

**BOOK YOUR SPACE!**  
**And be part of the wind potential for Mexico and Latin America**

# Space Option

## Raw Space:

Available from 18 m<sup>2</sup> with a cost per m<sup>2</sup> of \$455 USD + VAT

Includes:

- Exhibition space
- Services for exhibitor

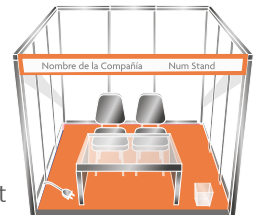

\*it does not include electricity or carpet
